POLICIES

	Healthcare	
	AMAC does not support The Affordable Care Act, known as Obamacare. AMAC believes competition and choice drive down premiums, and we support options such as short-term plans, and the expansion of health savings accounts (HSAs). AMAC opposes all Medicare-For-All schemes.	
	AMAC believes Social Security must be preserved and modernized. We have developed a Social Security Guarantee reform plan that ensures the solvency of Social Security for 75 years without raising taxes or using the chained CPI as a means of calculating cost of living adjustments.	
	AMAC strongly believes that American citizens are excessively taxed. We favor reductions in individual and corporate tax rates.	
	AMAC is pro-life. We are against abortion in principle and feel it is improper to allow government funding of abortions, except to save the life of the mother.	
	AMAC fully supports all of those who have served and are currently serving the United States in the armed services. We believe all active duty personnel and veterans deserve access to quality health care and to mental health services.
