

"A gun is like a parachute If you need one, and don't have one, you'll probably never need one again."

Conundrum:

The definition of the word Conundrum is: something that is puzzling or confusing. Here are six Conundrums of socialism in the United States of America:

- 1.America is capitalist and greedy - yet half of the population is subsidized.
- 2.Half of the population is subsidized - yet they think they are victims.
- 3.They think they are victims - yet their representatives run the government.
- 4.Their representatives run the government - yet the poor keep getting poorer.
- 5.The poor keep getting poorer - yet they have things that people in other countries only dream about.
- 6.They have things that people in other countries only dream about - yet they want America to be more like those other countries.

These two, short thoughts tell you a lot about the direction of our current government and cultural environment:

1. We are advised to NOT judge ALL Muslims by the actions of a few lunatics, but we are encouraged to judge ALL gun owners by the actions of a few lunatics. Funny how that works. And here's another one worth considering...
2. Seems we constantly hear about how Social Security is going to run out of money. But we never hear about welfare or food stamps running out of money! What's interesting is the first group "worked for" their money, but the second didn't.

Think about it.....and Last but not least :

"If you do not take an interest in the affairs of your government, then you are doomed to live under the rule of fools." – Plato
