

RUSSIA - UKRAINE UNVEILED

Join us for an enlightening and stimulating program on the "Realities of Russia, its War in Ukraine, and the Future of U.S. Russian Relations."

Come hear retired senior CIA officer and Russia Subject Matter Expert Glenn Corn's earned perspectives on Russia, the Putin regime, and its invasion of Ukraine. Glenn is a 34 year veteran of the U.S. Intelligence and Foreign Affairs communities, with 20 years of service abroad and senior intelligence postings in Washington, D.C.. He is a fluent speaker of Russian and Turkish, with multiple tours in Russia and four assignments as a CIA Chief of Station (COS) in Eurasia and the Middle East.

Thought provoking.... With Russia now aligned with China, Iran and North Korea, and continued U.S. support of Ukraine in jeopardy, should we advocate for the resumption of U.S. military aid to Ukraine or accept that "Ukraine's border is not our own?"
