

Sign the on line petition at
<https://www.change.org/p/wrl-children-s-section-june-2023> to tell the Williamsburg Regional Library (WRL) you do not want them to post an LGBTQ display in the children's section.

We do not want the Williamsburg Regional Library (WRL) to have an LGBTQ display again this year (June) in the children's section of the library.

This petition is open to Williamsburg and James City County residents

The time has come again to make sure the library board of directors knows we do not want an LGBTQ display in the children's section of the library again this year. Please open the link to sign the petition and share this with as many residents of James City County or Williamsburg you know so I can present the signatures to the library board and library director when I attend the monthly meeting at the **end of February** to start planting the seeds for their planning committee. **100 signatures are required for the petition.**

Each month the amazing staff at the WRL puts out great displays of children's books with a theme that corresponds with a culturally relevant holiday or holidays and/or in honor of the National Month theme. LGBTQ month has been the display for June in the past. We do not want an LGBTQ display or any featured events such as Drag Queen Story Hours. We,

parents and patrons of the WRL, feel the promotion of LGBTQ and similar sexuality or gender content is inappropriate for the children's section and want the display removed in the coming annual displays at the WRL.
