

THE TRUTH WE ALL KNEW:

MJTruth

February 10 at 4:35 PM · 🌐

February 10, 2025—History will remember this day. The moment when the American people finally saw the truth laid bare. The criminal conspiracy that protected Hillary Clinton, manipulated justice, and waged war against Donald Trump has now been fully exposed.

For years, patriots demanded answers. Why did the FBI refuse to prosecute Clinton for her blatant violations of 18 U.S. Code § 793? Why was justice obstructed at the highest levels? The answer has now been confirmed by none other than former CIA Director John Ratcliffe—Barack Obama himself ordered the FBI NOT to arrest Hillary Clinton for espionage.

THE ORDER CAME FROM OBAMA HIMSELF

The conspiracy went straight to the top. Lisa Page, former FBI lawyer, admitted under oath that the Department of Justice explicitly instructed the FBI to stand down.

John Ratcliffe: "So, just to be clear, when you say you got instructions from the DOJ, they told you outright: 'We are NOT prosecuting Hillary Clinton for gross negligence?'"

Lisa Page: "That is correct."

This was not an accident. This was a deliberate cover-up, orchestrated at the highest levels. Clinton was meant to secure the presidency in 2016, ensuring the Deep State's grip on America remained unchallenged. But when Trump won, their house of cards collapsed—sending them into full panic mode.

THE CLASSIFIED EMAILS: OBAMA'S REAL MOTIVE

Why did Obama go to such lengths to protect Clinton? Because her private email server contained secrets so explosive they could have destroyed the Deep State.

Emails confirming pay-for-play schemes with foreign governments.

Direct collusion between the Obama administration and foreign intelligence agencies to manipulate U.S. politics.

Evidence of classified leaks to foreign actors in exchange for political favors.

Had Clinton been prosecuted, the case wouldn't have stopped with her—it would have led straight to Obama himself.

THE FBI: OBAMA'S PERSONAL ENFORCERS

The FBI, once a respected law enforcement agency, was weaponized under Obama to serve the Democratic Party. While Clinton was shielded from justice, the Bureau focused its efforts on manufacturing crimes against Trump.

- They launched the Russia collusion hoax, fabricating evidence to cripple Trump's presidency.
- They illegally spied on his campaign using FISA warrants based on false information.
- They persecuted Trump allies to silence dissent.

The same criminals who protected Clinton tried to destroy Trump, using the FBI as their personal attack dogs.

THE DEEP STATE'S FINAL GAMBIT: THE WAR AGAINST TRUMP

Clinton's exoneration was only the beginning. The moment Trump stepped onto the political stage, the Deep State launched a full-scale assault.

- They engineered the 2020 election to ensure he was removed from office.
- They used the intelligence agencies to spy on his campaign and presidency.
- They filed multiple indictments in a desperate attempt to block his 2024 run.

Yet, they failed. Trump is back, and now, the truth is finally coming to light.

THE MEDIA'S COMPLICITY

The mainstream media played its role perfectly. Instead of reporting the truth, they became the Deep State's propaganda arm.

- They dismissed Clinton's email scandal as a "nothingburger."
- They refused to cover leaked documents proving Obama's direct orders to protect her.
- They pushed every fabricated charge against Trump while burying the real crimes of the Democratic elite.

These are not journalists. These are political operatives, masquerading as the press.

THE TIME FOR JUSTICE IS NOW

The evidence is undeniable. The Obama administration, the DOJ, the FBI, and the media conspired to protect Hillary Clinton, silence Trump, and manipulate the justice system to serve

their agenda. This cannot be allowed to stand.

- Obama must be investigated for obstruction of justice.
- Clinton must finally face prosecution for espionage.
- The FBI must be purged of political corruption.
- The DOJ must be rebuilt from the ground up.

The only question left: Will justice finally be served?
