President-elect Trump is furious...

On Saturday, Trump called the New York judge who ordered sentencing to begin next week in his hush-money case to be disbarred. "I never falsified business records. It is a fake, made up charge by a corrupt judge who is just doing the work of the Biden/Harris Injustice Department, an attack on their political opponent, ME!" he wrote on Truth Social on Saturday morning, echoing his initial response.

I never falsified business records. It is a fake, made up charge by a corrupt judge who is just doing the work of the Biden/Harris Injustice Department, an attack on their political opponent, ME! He created a case where there was none. Keeps a "gag order" on me so that I can't talk about how crooked he is. The Fake News knows all about it, but they refuse to talk. He may be the most conflicted judge in New York State history. The accountant testified, with total corroboration, that the records were perfect & totally above board. A legal expense was called, on the books, a legal expense. There was nothing else it could have been called. This was the so-called falsifying of records. I was hiding nothing, everything was out in the open for all to see. Every legal scholar of note said there IS NO CASE AGAINST ME. The judge should be disbarred! This is why people, and companies, are FLEEING New York - A corrupt court system. In another crooked New York case, another corrupt Judge (overturned 5 times on my case alone, & the most overturned judge in New York!) valued Mar-a-Lago, in Palm Beach, Florida, at \$18,000,000, when it is worth 50 to 100 times that amount....And then we have, also in New York, the woman I never met (celebrity photo lines from 30 years ago don't count!), who was awarded almost \$100,000,000. A totally out of control, Trump hating judge, presided. The Biden/Harris DOJ was involved, directly or indirectly, in each of these cases. I won against Deranged Jack Smith!

"He created a case where there was none. Keeps a 'gag order' on me so that I can't talk about how crooked he is," Trump continued. "The Fake News knows all about it, but they refuse to talk. He may be the most conflicted judge in New York State history."

His comments come a day after Judge Juan Merchan announced that sentencing for the president-elect's 34-count felony conviction would begin before his inauguration on Jan. 10—handing Trump a blow after he demanded his case be dismissed following his election win.

Despite the decision to move forward with the case, Merchan signaled he is inclined to propose no punishment in the case connected to a payment made to an adult film star to cover up an alleged affair during the 2016 election.

“The judge should be disbarred! This is why people, and companies, are FLEEING New York,” he wrote Saturday. “A corrupt court system.”

“There has never been a President who was so evilly and illegally treated as I. Corrupt Democrat judges and prosecutors have gone against a political opponent of a President, ME, at levels of injustice never seen before,” Trump wrote in a second post.

@realDonaldTrump

There has never been a President who was so evilly and illegally treated as I. Corrupt Democrat judges and prosecutors have gone against a political opponent of a President, ME, at levels of injustice never seen before. Corrupt judges, or judges so blinded by their hatred of me and my political ideology to “MAKE AMERICA GREAT AGAIN,” are making a mockery of the United States Judicial System, and the World is watching in disgust. Deranged Jack Smith, the evil and sinister prosecutor appointed by Crooked Joe Biden to “take me down,” was found to be illegally appointed by a CORRUPT DOJ and FBI, and all of his many charges against me were dropped or dismissed. His illegal raid of my home, Mar-a-Lago, will go down as one of the “dirtiest tricks” ever perpetrated by one candidate, a dumb as a rock, Sleepy Joe Biden, on another. With all of this said, I still have confidence that the Appellate Courts will bring JUSTICE TO AMERICA!!!
