**RICHMOND, VA** - The Virginia General Assembly passed a revised, illegal, and unconstitutional redistricting plan again today that tilts the congressional map lines even more solidly partisan Democrat and 10-1. Many of the districts are tailored for the party's handpicked preferences to run in those districts – and reflects meddling by Hakeem Jeffries, the House Minority Leader in Congress.

“Today, in defiance of a court order, Virginia Democrats advanced their illegal gerrymandering scheme. It now goes to Governor Abigail Spanberger. She said she will not get in the legislature’s way, but will she defy the Court?” said Mike Young of Virginians for Fair Maps.

### **About Virginians for Fair Maps**

Virginians for Fair Maps is a nonpartisan organization committed to protecting the independent redistricting reforms approved by Virginia voters in 2020. The group works to ensure that electoral maps are drawn fairly, transparently, and without partisan manipulation, empowering voters to choose their leaders – not the other way around.
