

Wisconsin Residents Reject ‘Minnesota Nice’ on Immigration

By [Steve Cortes](#)

February 17, 2026

A service member holds an executive order by President Donald Trump signed during a Mexican Border Defense Medal presentation in the Oval Office on Dec. 15.

Brand new polling numbers from the key battleground state of Wisconsin reveal that Midwestern patriots demand law and order and a return to national sovereignty for our country. These results expose the constant media lies—with the expressed views of Wisconsin citizens who carefully watch the radicalism unfold right next door in Minnesota ... and demand a different path.

This poll makes clear the ongoing will of regular Americans to reclaim our country. These salt-of-the-earth Americans insist that policies prioritize our own citizens and that immigration can only work in a controlled, lawful manner.

Importantly, this poll is not some propaganda “push poll.”

In fact, there is a lot in these overall Wisconsin results that should really worry the White House and the GOP into November. But on this foundational topic, the will of the people is clear, and it’s patriotic populist. See the findings in this poll conducted by [TIPP Insights](#) for the [League of American Workers](#):

1. Cooperate with Federal Law Enforcement—by a massive +23% margin, Wisconsin voters want local and state police to fully cooperate with federal law

enforcement immigration enforcement, 57% to 34%. Clearly, most voters remain super pro-cop, as a default. In fact, even 29% of Democrat voters in Wisconsin want complete local-to-federal police cooperation. Among Hispanics, the spread is 56% to 37% in favor of cooperation, which totally debunks the newest Beltway lie that “immigration is losing Latinos.”

2. Offer Incentives to Self-Deport, Then Arrests—when the current administration policy is described to voters, they overwhelmingly approve. Right now, every illegal migrant is offered \$2,600 per family member to self-identify and leave voluntarily.

In addition, American taxpayers even pay for the flights home—and the illegal migrant becomes able to reapply later as a legal immigrant. This kind of magnanimity toward trespassers is incredible, really.

Well, Wisconsin citizens agree, by a wide margin, that illegal aliens who refuse that offer should be forcibly removed, 55% to 31%. For Hispanics, that number soars all the way to +42%, 65% to 23%. Even 28% of Kamala Harris voters agree with this humane and sensible approach, perhaps not even knowing that it’s the current policy of the Trump/Vance administration.

3. Wisconsin Does Not Want to Imitate Minnesota on Immigration—Only a scant 27% of Wisconsin voters say their state should model its immigration policies after Minnesota. Despite the recent lax immigration advocacy of some senior Catholic Church officials, the faithful in this deeply Catholic swing state disagree. This poll proved that only 28% of Catholics want to follow the lead of Minnesota on immigration.

4. Trump’s Best Issue Is Border Control—Voters remain in a foul mood overall in America. But the best issue for President Donald Trump, by a lot, is controlling the border. It represented the foundational promise of the 2024 campaign, and it was achieved with remarkable speed. Wisconsin knows it. Among men in the Badger State, Trump is at +16% approval, 55% to 39%.

So, the administration should not blink. Don’t fall for grand legacy media lies. Do not submit to the establishment Republicans who clamor for a return to decades of bipartisan failure on immigration. America is our country. It is our home. This land belongs to citizens, whether native-born or legally naturalized. Protect our home ... and earn the political benefits, too.
